

## **Department of Mechanical Engineering**

### **Innovation and Best Practices**

1. Value added courses and skill development courses are imparted to students every semester in addition to regular courses.
2. More Industry oriented curriculum – 5<sup>th</sup> unit of all courses are consisting of industrial practices – one or two titles of the same is designed to engage by industry personnel.
3. Students have the provision to opt for Department hosted PECs or equivalent NPTEL/MOOC courses.
4. The department is equipped with dexterity project centre to motivate all semester students to do project work.
5. Every year, Academic and Administrative Audit is conducted by an external expert to audit Teaching-Learning Process, infrastructure and research of the department.
