

Student funded projects Received

_Title of the Project	Type of Support and Funding Agency	Grant Received (Rs)	Principal Investigator	Project duration
Prevalence And Antimicrobial Resistance Of Sea Food Pathogenic Bacteria From Marine And Fresh Water Fishes In Fish Markets And Fish Landing Centres, Chennai, Tamil Nadu	Student Project Scheme, Tamil Nadu State Council for Science and Technology, Government of Tamil Nadu (TNSCST)	7,500	Dr. M. Jayaprakashvel	2023 (6 months)
Bioformulation and Efficiency Testing of Bioethylene Producing Rhizobacteria	Student Project Scheme, Tamil Nadu State Council for Science and Technology, Government of Tamil Nadu (TNSCST)	7,500	Dr. M. Jayaprakashvel	2022 (6 months)
Natural dye synthesis for dye sensitized solar cell from seaweed extract	Student Project Scheme, Tamil Nadu State Council for Science and Technology, Government of Tamil Nadu (TNSCST)	7,500	Dr. L. Senthilnathan	2022 (6 months)
Extraction of Anthocyanin and to study its Biochemical Properties from Seaweeds	AMET Student project funding scheme, AMET University	15,000	Dr. N. Sri Kumaran	2018 (6 months)
Effect of Different types of salts on Brining of sea foods and their preservation efficiency	AMET Student project funding scheme, AMET University	15,000	Dr. M. Jayaprakashvel	2018 (6 months)
Characterization of bio polymers produced by marine bacteria	Student Project Scheme, Tamil Nadu State Council for Science and Technology, Government of Tamil Nadu (TNSCST)	10,000	Dr. R. Muthezhilan	2013 (6 months)
Preparation of new recipes and characterization of antimicrobial peptides (amps) of <i>Crassostrea madrasensis</i> against food pathogens	Student Project Scheme, Tamil Nadu State Council for Science and Technology, Government of Tamil Nadu (TNSCST)	7,500	Dr. R. Muthezhilan	2010 (6 months)
