

Seed Money Project

Name of the investigator	Title of the Projects and duration	Amount sanctioned (Rs.)	Status	Year of Sanction
Dr. M. Jayaprakashvel	Development of a mobile Application for citizen Science Tools in Coastal Biodiversity Assessment: A Pilot Study on Bivalves in Kovalam, Chennai	1,25,000	Ongoing	2025
Dr. K. Altaff	Exploring Novel Antidiabetic Compounds in the Indian Insulin Plant: An Investigation into Hypoglycemic Potential and Complications assessments	70,000	Ongoing	2024
Dr. C.M. Ramakritinan/ Dr. M.Jayapraksahvel	Green Macro Algae Extracted Nano-Cellulose and Gold NP Nanocomposites for Anti-Bacterial and Anti-Biofilm Efficiency Against MDR Pathogens	70,000	Ongoing	2024
Dr. K. Altaff	Identification of Potential Marine Copepod as live feed for Larviculture with reference to Molecular Taxonomy Techniques & Nutritional Value	1,00,000	Ongoing	2023
Dr. M. Jayaprakashvel	Isolation & Screening of biothylene production rhizospheric fluorescent <i>Pseudomonads</i>	30,000	Ongoing	2023
Dr. K. Altaff	Chitin Extraction from Caridine Shrimp and Zooplankton for Medical Applications	1, 50, 000	Completed	2020
Dr. M. Jayaprakashvel	Bioprospecting of Marine Macroalgae for Secondary Metabolites to be used for invitro Pharmacological Properties	1, 80, 000	Completed	2020
Dr. M. Jayaprakashvel	Bioprospecting of Endophytic and Rhizopheric Bacteria	50, 000	Completed	2018

	Associated with Coastal Sand Dune Plants in the East Coast of Tamilnadu for Agariculture Applications			
Dr. N. Sri Kumaran	Isolation and characterization of cytotoxic and anti-inflammatory potential secondary metabolites from seaweeds	50, 000	Completed	2018
Dr. Jaffer Hussain	Effective removal of Methylene Blue dyes from water using three different low cost	10, 000	Completed	2015
