

DEPARTMENT OF NAVAL ARCHITECTURE AND OFFSHORE ENGINEERING

Major Achievements

Students have brought laurels to the department by participating internationally and nationally in other University programs like tech-fests, delivering and conducting seminars, and technical papers. Many of our students have participated and achieved excellence in projects like model making for various functions and fests held by engineering universities all over. Our students have participated and won in different events held by Autodesk, IIT-M, IIT-KGP, VIT, MIT, IIT-Bombay. Some of the notable achievements are mentioned below:

Mr. Shubham Bhatt, 2018 batch has successfully demonstrated the AMET funded Wave Tank Project and received First Prize in an online competition monitored/sponsored by AutoDesk globally. In this competition there were 105 participants from all around the world and he is able to achieve 1st prize.

Our students, in collaboration with the cadets of Nautical Science, designed and developed a scaled gravity fall life boat with a launching mechanism and the same was applauded by the biggest shipping company Maersk

Our students achieved first prizes in many competitions and paper presentations conducted by IIT Kharagpur, IIT Madras, IIT Bombay and many other Universities and colleges.

Students of Naval Architecture and Offshore Engineering have presented papers and participated in prestigious International and National conferences conducted by different organizations and universities such as ICMET Oman by IMarEST and International Naval Engineering Conference (INEC) Netherlands, Maritime International Conference (MARINCO) jointly organized by AMET and IMU.

The students and faculties of the department of Naval Architecture and Offshore Engineering secured best paper award in the international conferences such as MARINCO2019 and ICSOE 2018
